Quality Focused Customer Interactions

designed to reduce development time and cost, while delivering what the customer needs.

Adaptive Strategies to Software Development

over three years of professional experience and over six years in total.

Work Experience

Founder, Astero

2016 ~

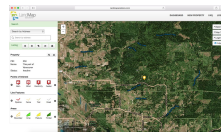

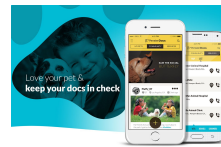

- [Astero](#) is a software company that specializes in mobile and web development.
- **Developed an Android/iOS application** called [Phrase It](#) that helps language learners write and speak faster, more confidently, and more naturally in a second language.

Software Design Engineer at Velosys, LLC

2015 - 2016

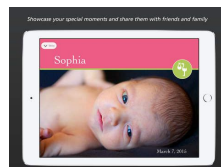

- **Promoted from QA to SDE.** Architected and implemented software solutions to existing problems.
- Developed a **customer-facing native Android application** called [PensterDocs](#) in Java that helps pet owners effectively communicate their medical records and other information to veterinarians
- Developed a **user-friendly web tool** to export land brokerage companies' property metadata in [Land Map Solutions](#) (a Velosys product) to Excel spreadsheets for their use internally.

Quality Assurance Tester at Velosys, LLC

2012 - 2015

- Facilitated developers with software application development by suggesting new features, pitching UI or logic changes, and also locating logic errors, runtime errors, and compilation errors.
- Participated in the software application development process, including the **Agile Development**, daily scrums, and user stories that were made into basic functionality tests for every application (i.e. [Booklet by Velosys](#)).

Skills

Hybrid Apps

React Native and the **Ionic Framework** are my favorite tools for recent mobile projects.

Android / iOS

Over five years of experience with native **Android** and hands on experience with **iOS** using **Swift**.

Web

Over four years of experience with web technologies like **jQuery**, **ES6 JavaScript**, **React**, **AngularJS**, and **Ruby on Rails**.

Education

Bachelors of Science in Computer Science from the **University of Washington**.

Studied abroad in Tokyo at the **Tokyo Institute of Technology** in Tokyo, Japan doing research into a location based [app recommendation system](#).
